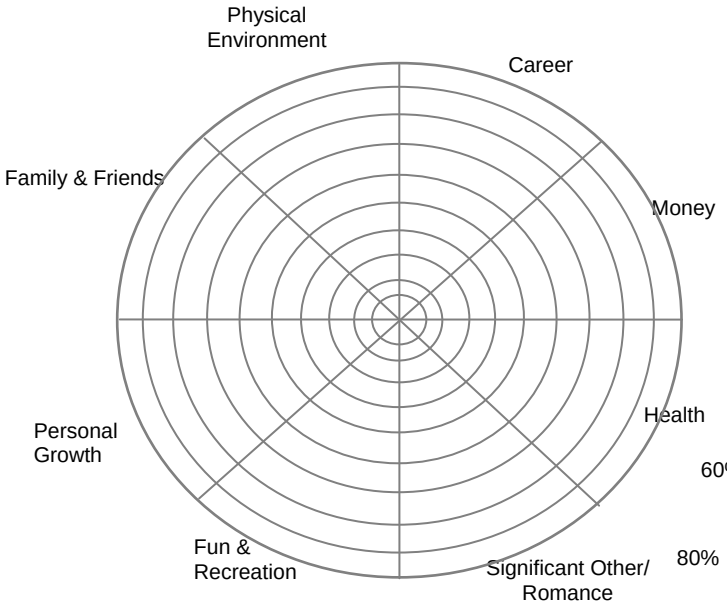
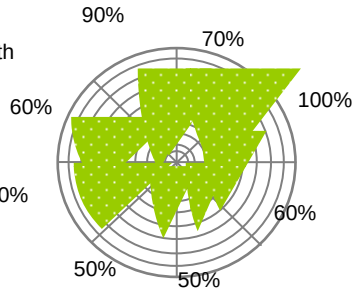
Wheel of Health



Example:



Wheel of Balance

Wellness is a balance of many factors. Using the circle, shade your level of satisfaction in each area as it relates to you.

For example, if you are extremely happy in your career, shade the entire pie shape for career.

Do the same for each area, starting from the center point radiating outwards.

Welcome to Naturopathic Care

I want you to enjoy and benefit from your visits.

Your first visit will consist of a **consultation, detailed history, a general physical exam and more specific naturopathic assessments**. Based on this information, initial recommendations for your treatment protocol will be made on your first visit. If it is necessary for a more complete analysis of your health status, you may be asked to have further laboratory tests done, these may include; blood testing, salivary hormone testing, urine, hair and stool analysis. Through this healthcare assessment, a baseline measure of health is established which will be used to monitor your progress.

Naturopathic treatment programs often include **dietary changes, botanical/herbal medicine, nutritional supplementation, homeopathy, acupuncture and Bowen therapy**. Any side effects or risks associated with your treatment will be explained to you. Part of the program will also involve lifestyle recommendations that are logical and sensible; I encourage you to have a support team as you make these changes, often having someone else, be it a partner, family member or friend, undergoing naturopathic care at the same time, will help ease you both toward better health. Your second visit is a good time to ask any questions that you may have had after your initial visit. If you need immediate clarification on remedies, dietary recommendations or have a concern over any unfamiliar symptoms that may arise, please call the office.

On your following visits your progress will be monitored and treatments will be modified accordingly. The second visit is usually one to four weeks after your initial visit. If you are receiving acupuncture treatments, visits will be more frequent, either once or twice weekly for 6-10 sessions, Bowen therapy sessions are usually 5-10 days apart. As you start to experience a new level of wellness, an office visit every three to four months is recommended for general disease prevention and health maintenance. If an acute, non-emergency condition occurs, please give us a call as we may be able to help with a naturopathic treatment.

Many patients have allergies and are environmentally sensitive. On the day of your visit to the office please do not wear any scented products (perfumes, shaving lotions, etc.).

If you are unable to keep a scheduled appointment, please give the office 24 hours notice. We are then able to give the appointment time to someone else. If we do not receive sufficient notice you will be charged for the missed visit.

Payment for visits shall be made at the time of the appointment

Please be advised of the fees effective June 1, 2010
